

better work, better life

# ACCA Networking Event

## Beyond Accounting: Opportunities in the Banking and Finance Sector

Senior Division Manager, Banking, Vijay Pillai, represented Adecco to give a 30 minute presentation on "Career Opportunities in Banking and Finance" at The Young Professionals Network Event that was held on 10 September at Bobby's Restaurant, Chijmes.

A first collaboration with ACCA, the theme of this event was "Beyond Accounting: Opportunities in the Banking and Finance Sector". It aims to provide a platform for young ACCA members and affiliates to network.

Vijay shared about the current trend and demands in the Banking and Finance sector. Delving into the career opportunities, Vijay commented on the current business climate in these sectors and gave advice on what employers are looking for in potential candidates. He gave tips on what to take note of when applying for a job and what not to do when going for interviews.

There were about 80 ACCA members who attended the event. Most of them have completed the ACCA exams but may not have the necessary experience to apply for a full ACCA membership. Many were curious and concerned about their career options upon graduation. A few were seen queuing up to seek Vijay's advice after his presentation.

Overall, it was a successful event as we managed to create awareness of the Adecco brand and had the opportunity to network. We look forward to more collaboration with ACCA and other organizations in the near future!

Confident and engaging Vijay capturing the crowd's attention
