## Post Event Report

### Ngee Ann Polytechnic Radio Talk Show “Job Market for Fresh Graduates”

**4<sup>th</sup> February 2009**

Crystal Poh, Assistant Manager of Events & Exhibitions, participated as a guest speaker in a radio talk show held in Ngee Ann Polytechnic's radio station, Heatwave.

Our inaugural campus talk show at Ngee Ann Polytechnic (NP) was an interesting one. Joined by Mr Lee, an Economics lecturer from NP School of Business and Accountancy, the talk started off with a discussion on the current state of Singapore's economy and its future.

As the angle of the talk show was “In the face of the economic recession, what are fresh graduates job opportunities in the market?”, Crystal shared with the students on the current state of the job market for fresh graduates as well as what they can expect. Responding to the concerns of the students, Crystal also shared with the students on ways to make them stand-out from the rest of the applicants and advised on possible alternatives available to graduates.

After the talk show, Mr Lee shared with us that it is important that the students receive information of the current job market and advice when the students are seeking for employment in this current economic situation.

Many thanks to Crystal for her insights into the job market and advice to the students in their job search!

better work, better life

better work, better life

Preparation in anticipation for the radio talk show to commence

better work, better life

Red light is on and the talk show begins!
