### Marketing Institution of Singapore Talk “Interviewing Skills”

**3<sup>rd</sup> December 2009**

Crystal Poh, Account Manager of Adecco's Advertising and Media Division, shared useful tips on interviewing skills at the campus of Marketing Institution of Singapore (MIS).

To kick-start the session, the first episode of Adecco's new video series 'The Big Break' was played as it takes a look at the job interview. Using the video, Crystal created an opened and friendly environment as the students shared with her what they saw in the video. As the session continued, Crystal's presentation and sharing covered areas such as the types of interview, stages of an interview and handling difficult questions. To make the session more interesting and lively, Crystal acted out how a job seeker should be sitting/responding during a job interview..

Many questions were raised by the students. Some of which included handling difficult questions and follow-up actions after a job interview. In response, Crystal answered their questions with ease and confidence as she shared with them her experiences in dealing with different types of job seekers.

After the talk, MIS' Membership Manager, shared with us that it is valuable for the students to receive tips and advice so that they will know how to dress and perform during an interview. Through our sharing, they would be able to gain greater insights and understanding on what employers/recruiters are looking out for in a job interview.

Kudos to Crystal for her dynamic and lively sharing with the students in MIS!
